ROTARACT CLUB

**Report on World Environment Day” Overview of World Environment Day by
using seed balls and its outcome.**

1. Event Details

- | | |
|------------------------|---|
| a. Date of Event | : 5th June 2022. |
| b. Chief Guest | : Raj bhatt, Youth Coordinator, Rotaract club |
| c. No. of participants | : 20 |
| d. Venue | : Chamundi Hills. |

2. Objective:

1. World Environment Day aims to encourage awareness and action for the protection of the environment.

2. The practice of seed balls was very effective in growing rice, barley, vegetables and fruits. Seed balls are synonymous anywhere there is land for cultivation. They are an effective way of establishing plants without the need for plowing or drilling, at very little cost.

3. Outcome of the Event:

On the occasion of " World Environment Day" The main purpose of the celebration was to spread awareness about the need to protect the Environment. All in all the day was a great success, and has certainly made a difference to the way

we view our environment. And also took the initiative to plant the Saplings by using Seed balls.

4. Summary

Grand success of World Environment Day By using Seed balls.

The world environment day is celebrated every year on 5th June to raise global awareness to take positive environmental action to protect nature and the planet earth. It is a day that reminds everyone on the planet to get involved in environment friendly activities. People come together to pledge towards building a greener planet. Keeping this aim in view, Rotaract Club Of MIT First Grade College celebrated World Environment Day on 5th of June 2022. Students have participated and celebrated world environmental day enthusiastically. They were asked to use the Seed balls to plant a sapling to create a green corner. The seed ball protects the seeds from the hungry mouths of small animals and birds. Rain breaks down the clay and the humus provides necessary nutrients for the young seedlings. A lot of enthusiasm was seen in the students. The event was conducted successfully with whole hearted participation and awareness about plants.
