Certificate Course on
" Mobile Application Development
and
Software Engineering "

About College

MIT First Grade College(Previously Gopalswamy College of Professional Studies) was established in the year 2009 by Maharaja Education Trust(R), Mysuru. The institution aims at imparting good education with an emphasis on developing the overall personality of its students in addition to instilling moral values. We, in this institution, strive hard to shape the students in such a way that they would transform into an asset to the community and the nation at large.

Vision

Empower the individuals and society at large through educational excellence; sensitize them for a life dedicated to the service of fellow human beings and mother land.

Mission

To impact holistic education that enables the students to become socially responsive and useful, with roots firm on traditional and cultural values; and to hone their skills to accept challenges and respond to opportunities in a global scenario.

Programs Offered

- BCA
- B.Com
- BBA
- M.Com

About the course

This course is blend of application development and software engineering. The Android is an operating system and programming platform developed by Google for mobile phones and other mobile devices. This is a practical oriented course which provides participants with the information and lab experience necessary to develop and deploy Android applications and covers core java and basic Android application Development.

The study of software engineering focuses on how software is built tested and quality is assured for proper usage in all kinds of industries, from finance to education to healthcare to shopping. Software engineering deals with all aspects of software production and maintenance to obtain efficient and reliable machines.
