Grand success of Swachh Bharath Event.

Cleanliness means keeping ourselves neat and clean by avoiding dirt. It is the best practice to keep everything clean. According to the type of things, we can divide cleanliness into various types such as cleaning of clothes, cleaning of streets, cleaning of surroundings, cleaning of houses, cleaning of person, personal cleanliness, etc. In order to maintain our personal cleanliness, we need to practice cleanliness very carefully and make it a most important habit. It is very necessary to maintain the cleanliness of surrounding together with our personal cleanliness. We should understand the importance of cleanliness and do practice of cleaning ourselves and surrounding areas.

We should follow as well as teach kids of home to practice teeth cleaning, hand washing, bathing, and other cleaning habits. People who are used to keeping themselves dirty, they also keep their surrounding areas and environment dirty and filthy. That's why they always suffer weakness, weak health, infections, various types of diseases, etc. So, it is very clear that we should keep ourselves and environment clean in order to be healthy, happy and free of diseases.
